2. Product parameters

RATED VOLTAGE	12V-24V
POWER RATING	120W-200W
RATED	2.0L
NET WEIGHT	2.65KG
PRODUCT SIZE	295X270X245MM
PC/CTS	8
CTN SIZE	615X565X500MM

3. Circuit schematic diagram

4. User notice

1. Before using the first time, wash the inner pot and lid and dry thoroughly.
2. When you use car battery, make sure the engine is running, to avoid not being able to start the car due to flat battery.
3. Keep the power cord and power socket in good contact.
4. Where the bottom of the inner pot is in contact with the heating plate, there must be no debris there to avoid reaction.
5. Please use original accessories.
6. The normal working range of the product is below 2000 meters above sea level, cooking performance is not guaranteed if the altitude is exceeded.
7. From the date of purchase, non-human damage warranty for one year.
8. Repairs for man-made damage are subject to a spare parts fee.
9. Unfinished matters, please contact the dealer.

Tips:

1. Different rice requires different amounts of water. The ratio of rice to water is recommended to be about 1:1.2-1.5. The ratio of porridge, rice and water, about 1.8-1.2 is recommended.
2. It is better if the capacity of the inner pot is not more than 2/3 full.
